[Go to Plugin Installer](#)

5. In the list, find LPB Bank payment gateway **"LPB Bank E-commerce Gateway"** and click the **"Settings"** button

<input type="checkbox"/>	LPB Bank E-commerce Gateway	LPB Bank E-commerce Gateway
	Settings Deactivate	Version 1.0.0 By LPB Visit plugin site

6. In the tab "Payments" in **"LPB Bank E-commerce Gateway"** click the **"Manage"** button

The screenshot shows the WordPress admin interface with the WooCommerce settings page open. The 'Payments' tab is selected. A notification at the top states: "Your store does not appear to be using a secure connection. We highly recommend serving your entire website over an HTTPS connection to help keep customer data secure. [Learn more here.](#) Dismiss". Below this, the 'Payment methods' section is titled "Payment methods" and includes the text: "Installed payment methods are listed below and can be sorted to control their display order on the frontend." A table lists four payment methods:

Method	Enabled	Description	Action
Direct bank transfer	<input type="checkbox"/>	Take payments in person via BACS. More commonly known as direct bank/wire transfer.	Set up
Check payments	<input type="checkbox"/>	Take payments in person via checks. This offline gateway can also be useful to test purchases.	Set up
Cash on delivery	<input type="checkbox"/>	Have your customers pay with cash (or by other means) upon delivery.	Set up
LPB Bank E-commerce Gateway – Medoro Payment	<input checked="" type="checkbox"/>	Choose payment method on next page	Manage

A "Save changes" button is located at the bottom left of the settings area. The "Manage" button for the LPB Bank E-commerce Gateway is highlighted with a red rectangular box.

7. Add the following setting in the window appeared:

- **MID (Interface Code)** - it was given to you by the manager when registering in the "Medoro" system.
- **Key Index** - after you upload the public key issued to you into the "Medoro" system, the key will appear in the list under the number assigned to it.
- **"Medoro" Gateway Key** - upload the public part of the merchant key to the merchant interface (**ipsp.lv** → **Merchants** → **your mid** → **Keys**). Then download the public part of the Bank key (Gateway Key) from the same system.
- **Merchant Key** - it is generated by your IT manager using OpenSSL.

Examples of openssl commands for generating RSA keys:

- `openssl genrsa -out privkey.pem 2048`
- `openssl rsa -in privkey.pem -pubout -out pubkey.pem`

The screenshot shows the WordPress admin dashboard with the WooCommerce Payments settings for the LPB Bank E-commerce Gateway. The 'Payments' tab is selected, and the 'LPB Bank E-commerce Gateway' settings are displayed. A red box highlights the 'Interface Code*', 'Key Index*', 'Gateway Key*', and 'Merchant Key*' fields. The 'Save changes' button is visible at the bottom.
